

Catch and Call - How To: Viewing Top 5 Catches

Overview

You can view the top 5 catches of the month to track your best fishing moments. The list is automatically generated based on weight or length and can be easily shared or reviewed for personal records or competitions.

1. Accessing Top 5 Catches

- From the **Main Menu**, tap "**View and Share Logs**".
- Tap "**Top 5 Catches**" to open the summary screen.
- The list will display your top 5 catches based on either weight or length.

2. How the Top 5 Are Calculated

- Catches are filtered by the current month.
- Only one type of measurement is used at a time:
 - **Weight:** Uses standardized units (e.g., total ounces or kilograms).
 - **Length:** Uses either inches + 1/8 or centimeters (decimal).
- Each catch is sorted from largest to smallest.

3. Viewing Catch Details

- Each item on the list includes:
 - Species
 - Date and time
 - Measurement (weight or length)
 - Catch type (Fun Day or Tournament)
- Tap an entry to highlight it or prepare it for sharing.

Additional Notes:

- Make sure GPS and measurement data are correctly recorded for accuracy.
- If no catches meet the criteria for the current month, the page will be blank or say, "No Data Found."
- This screen is read-only and pulls from saved catches in your local log.

The screenshot shows a mobile application interface with an orange background. At the top, there's a title 'Top 5 Catches This Month' in blue. Below it is a 'Select Species' section with a yellow bar containing the text 'largemouth'. Underneath are two input fields for 'Min Weight' and 'Max Weight', both with 'kgs' as the unit. Below these are four radio buttons for units: 'Lbs', 'Kgs' (which is selected), 'Inches', and 'Cms'. There are three buttons: a green 'SEARCH' button, an orange 'SHARE RESULTS' button, and a grey 'CANCEL' button. At the bottom, there is a list of five catch entries, each showing a date and time followed by a weight in lbs and oz. The first two entries are '2025-04-06 08:45:00 - 0 lbs 0 oz' and the last two are '2025-04-01 08:00:00 - 5 lbs 12 oz'. The middle entry is also '2025-04-01 08:00:00 - 5 lbs 12 oz'.
