

Bass Angler Tracker - Length Entry (Fun Day Mode)

1. Selecting Measurement Type

On the main menu, tap 'Fun Day'. You will be prompted to select how you want to measure your fish: 'Weight' or 'Length'. Choose 'Length' to begin logging fish based on their size.

2. Length Entry Screen

Once on the Length Entry screen, you'll see options to enter:

- Species of Fish
- Whole Inches (e.g., 14 inches)
- 1/8th Inch Increments (e.g., +3/8 inch)

Use the dropdowns or spinners to select the correct values for the fish you caught.

3. Saving the Catch

After selecting the correct species and length, tap 'Save Catch'.

Your entry will be stored for the day and added to the visible log below.

Only catches from today will appear in this list.

4. Viewing Your Catches

Scroll down to view a list of today's catches. Each entry shows the species, length (in inches and 1/8ths), and time of catch.

You can long-press an entry to delete it. Editing is not available in Fun Day mode, but you can re-enter the catch if needed.

5. Pro Tips

Bass Angler Tracker - Length Entry (Fun Day Mode)

- Only today's catches are shown for simplicity.
- Make sure to select the correct species to track catch trends.
- 1/8th increments matter in close contests - measure carefully!
